For : CONTROLLED DEFORMABLE HEADLAMP ASSEMBLY

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

Dear Sir:

**DECLARATION OF JASON A. GILLIAM**

I, Jason A. Gilliam, declare as follows:

1. I am a co-inventor, along with Lee A. Chase of the subject matter claimed in United States Patent No. 6,502,974.
2. I have read and understand the subject matter claimed in United States Patent Application No. 10/701,859 to Lee A. Chase, including the claims.
3. My inventive contribution to the subject matter disclosed in United States Patent No. 6,502,974 does not relate to the subject matter claimed in United States Patent Application No. 10/701,859. In particular, I did not contribute to the conception of using a flexure member having a flex modulus and a tensile modulus that vary along a longitudinal direction between the lens and the housing of a headlamp assembly, a flexure member having hollow tubes extending transversely through the flexure member, or any other subject matter claimed in the '859 application.
4. Further, I can state that it is my belief based on the facts as I know them that the subject matter claimed in the above-referenced application was invented solely by Lee A. Chase.
5. Mr. Lee A. Chase and I jointly conceived the embodiment shown in Fig. 7 of U.S. Patent No. 6,502,974, including the use of fillets 280. However, I did not contemplate the use of longitudinally extending ribs having uniform cross-sectional shape and dimensions as are now claimed.

Applicant : Lee A. Chase  
Appl. No. : 10/701,859
